

# Hannay Works Here.

Quality. Value. Service.

**Hannay Reels®**  
*The reel leader.*

[hannay.com](http://hannay.com)

# The Hannay Difference

SPRING REWIND  
CABLE AND HOSE REELS

# Built for success in every application.

**Heavy gauge  
rolled-edge disc**  
for strength and rigidity

**Continuous  
hub assembly**  
for superior strength

**Fully enclosed  
external spring  
motor** for easy and  
safe maintenance

**304 stainless steel  
drum standard** for  
maximum corrosion resistance

**Standard steel  
construction**  
with e-coat base and oven  
cured enamel 2-coat finish  
(304 stainless steel or  
aluminum available)

**4-way roller  
assembly** with dual  
arms for added strength

**Cable reels\*** feature  
externally mounted  
3- or 4-conductor  
and 45-amp collector  
assembly for ease of  
serviceability; more  
conductors and other  
amperages available

**Ratchet locking wheel**  
designed to prevent  
jamming and lock out

**Maintenance-free  
dual ball bearings**  
for smooth turning

**External ratchet  
pawl lock** for the most  
serviceable reel available

**Dual frame supports**  
for strength and rigidity

**\*Hose reels** feature a steel fluid path (stainless steel or aluminum optional) with an externally mounted 90° swivel joint for ease of serviceability. Sizes from ¼" to 2"

# The only reels you'll ever need.

**The Hannay  
Difference**  
MANUAL/POWER REWIND  
CABLE AND HOSE REELS

**Optional 4-way roller and bracket** available in multiple positions

**Heavy gauge roll-formed steel drum** with full-length weld

**Continuous hub assembly** for superior strength

**Heavy gauge rolled-edge disc** for strength and rigidity

**Riser designed to match curve of reel drum** for smoothly wrapped hose or cable

**Hose reels\*** feature a steel fluid path (stainless steel or aluminum optional) with an externally mounted 90° swivel joint for ease of serviceability. Sizes from 1/4" to 4"

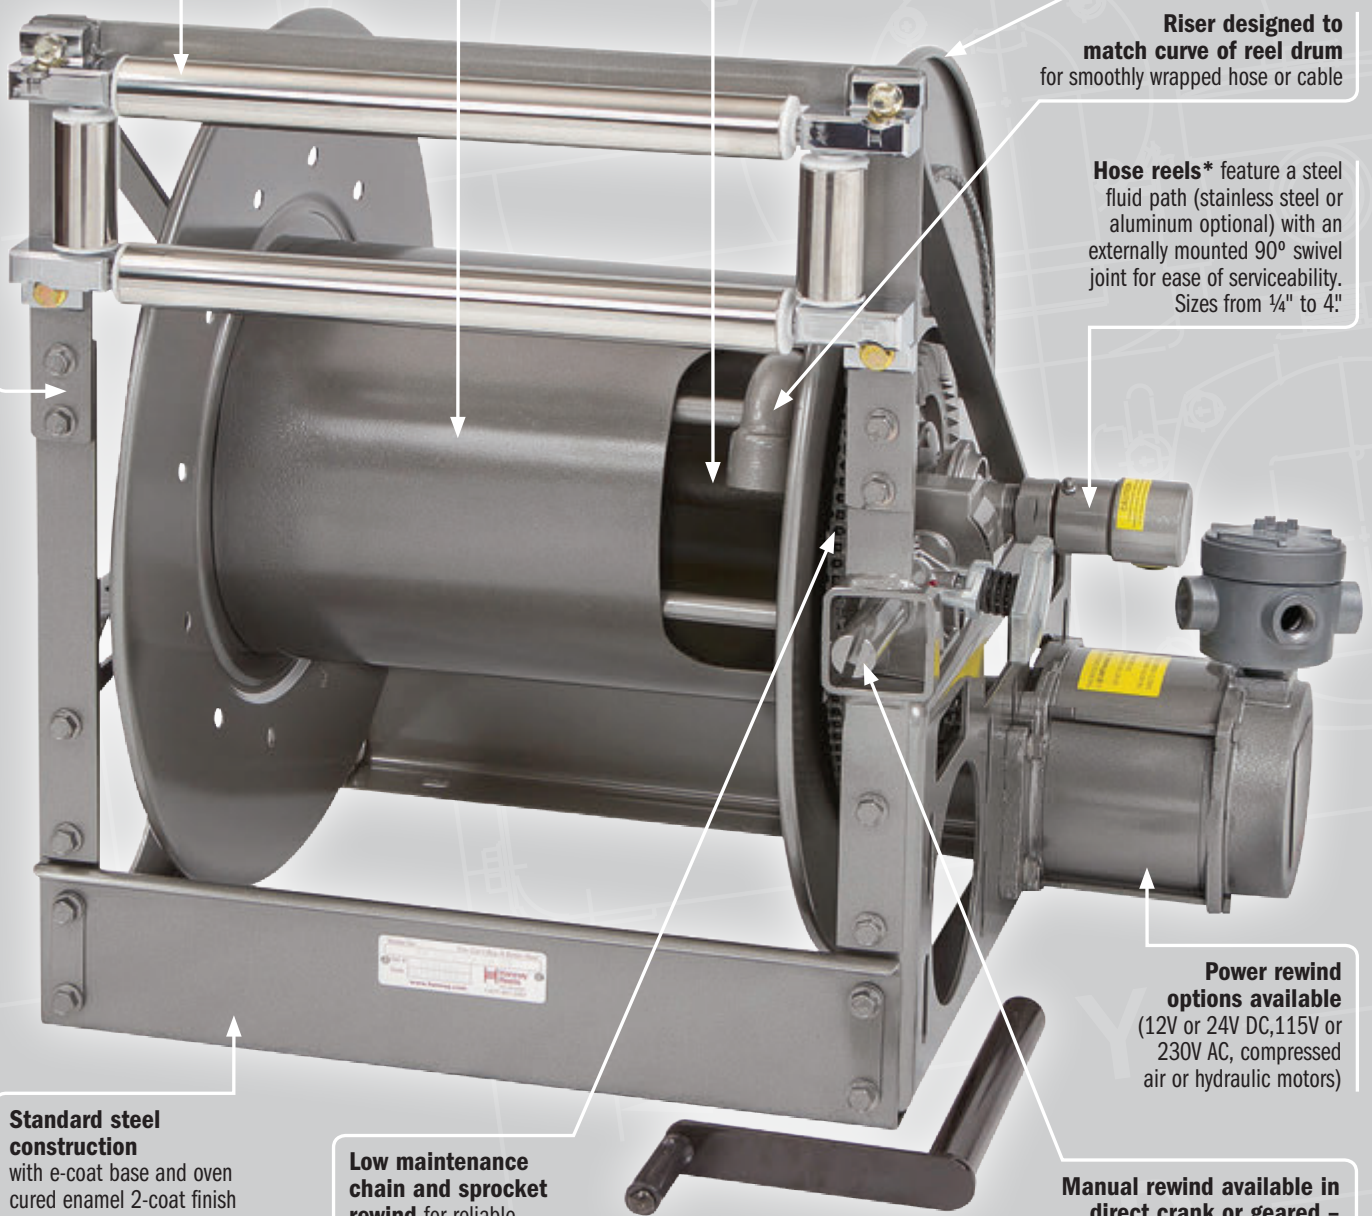

**Power rewind options available** (12V or 24V DC, 115V or 230V AC, compressed air or hydraulic motors)

**Manual rewind available in direct crank or geared** – can be primary or back up

**Standard steel construction** with e-coat base and oven cured enamel 2-coat finish (304 stainless steel or aluminum available)

**Low maintenance chain and sprocket rewind** for reliable, smooth running operation

**\*Cable reels** feature externally mounted 3- or 4-conductor and 45-amp collector assembly for ease of serviceability; more conductors and other amperages available

# Because your customers rely on you, turn to Hannay Reels.

**With thousands of models and extensive custom capabilities, we boast a steadfast commitment in delivering solutions for every application – big or small.**

We offer design and construction advantages that contribute to a “buy-it-once” quality that customers in the toughest jobs demand, including:

- **Heavy-duty design and construction**
- **Dual bearing and dual frame support – standard on all models**
- **Heavy-gauge steel frame**
- **Sealed axle bearings for smoother operation and longer life**
- **One-piece axle hub and fluid path assembly**

## **Hannay Reels provides advantages for every industry:**

**Safety** – Reels keep hoses and cables organized and off the ground

**Increased productivity** – Quick deployment and pickup features

**Installation options** – Truck-, trailer-, or garage-mounted, on wheels or carried by hand

**Quality construction** – Built to withstand harsh chemicals and rough environmental conditions

**Easy maintenance** – Components are easily accessible for quick routine maintenance

**Custom construction** – Reels are available in any shape or size for small or large capacity hose and lengths

## **The Hannay Reels Commitment:**

Since 1933, Hannay Reels has been known for unmatched craftsmanship, which is why we are the **#1 reel company specified by OEMs and professionals.**

Our customer service is just as important as our craftsmanship. With a sales and engineering staff going the extra lengths to understand each and every application, **our customers can count on the best reel at the best price.**

# Only one reel serves all of these industries.

## Agriculture

- Washdown and pressure washing
- Lubrication
- Refueling
- Welding
- Electric power tools, remote lighting, and generators
- Hydraulic/pneumatic tools
- Irrigation

## Aviation

- Washdown and potable water
- Aircraft servicing and maintenance
- Hydrant and mobile refueling
- Sensing and grounding
- Firefighting
- Aircraft de-icing
- Hangar operations

## Communications

- Fiber optic
- Video inspection
- Cable storage
- Sound/light rigging (rope and cable)
- Live electric cable for studio or mobile units

## Construction

- Service/lube/refueling for heavy off-road equipment
- Maintenance and servicing – air, water, lube, fuel
- Welding and cutting operations
- Hydraulic/pneumatic tools
- Washdown and pressure washing
- On-site electric for remote lighting, power tools, and generators
- Paving and asphalt repairs

## Fire and Rescue

- Booster/large diameter/flat hose
- HazMat situations
- Dual agent/foam
- Hydraulic/pneumatic tools
- Vehicular extrications
- On-site electric for remote lighting and tools
- Breathing and utility air applications

## Food Processing

- Electric cable for refrigeration power during loading or unloading
- Electric cable for lift truck recharging
- Washdown, pressure washing, and sanitation
- Electric cable for repair tools and powering equipment
- Dairy operations
- Bottling plants
- Food transfer

## Fuel Delivery

- LP gas – home delivery vehicles
- Dispensing systems, filling stationary and portable cylinders
- Petroleum – home delivery vehicles
- In-plant refueling, off-road vehicle/equipment refueling
- DEF dispensing and bulk delivery

## Grounds Maintenance

- Spraying pesticides, fertilizers, and herbicides
- Watering and irrigation
- Hydro-seeding
- On-site electric for power tools – clipping, edging, and trimming
- Washdown, pressure washing, and steam cleaning
- Hydraulic/pneumatic tools
- Lawn care

## Industrial

- Washdown, pressure washing, and potable water
- Chemical processing and transfer
- Arc and gas welding
- Hydraulic/pneumatic tools and machinery
- In-plant fire protection
- Vacuum/suction, water blasting, and spray painting
- Fuel dispensing, lubrication, and grease
- On-site electric for remote lighting, tools, and machinery

## Maritime

- Drydock, workboats, shipyards, and drill rigs
- Fuel dispensing, lubrication, and grease
- Hydraulic/pneumatic tools
- Firefighting, washdown, steam cleaning, and pressure washing
- Arc and gas welding
- Heavy rope/cable storage
- Offshore crude unloading and refueling
- On-site electric for tools and machinery

## Military/Government

- Certified vendor – NSN
- Electric cable and power cords
- Arc and gas welding
- Aircraft maintenance and hangar operations
- Firefighting
- Fuel dispensing, lubrication, and grease
- Fiber optics, surveillance, and communications
- Pressurized air and nitrogen

## Mining

- Heavy equipment maintenance
- Fuel dispensing, lubrication, and grease
- Hydraulic/pneumatic tools
- Video inspection and sensor lines
- Arc and gas welding
- Electric cable for remote lighting, tools, and machinery
- Washdown, blasting, slurry, suction, and discharge
- Fire protection

## Sewer and Waste

- Pressure washing, sanitizing, and steam cleaning
- Vacuum/suction and bulk transfer
- Jetting, rodding, and water blasting
- Sewer, septic, and portable toilet cleaning
- Video pipeline and sewer inspection
- Hydraulic/pneumatic tools

## Transportation/Fleet Management

- Dispensing – grease, oil, water, and antifreeze
- Railroad locomotive service – fuel, water, coolants, and de-icing
- Hydraulic/pneumatic tools and machinery
- On-site electric for lighting, tools, machinery, and engine warmup
- Arc and gas welding
- Fuel dispensing, DEF, and bulk delivery
- Power wash/washdown

## Utility Trucks/Work Trucks

- Hydraulic/pneumatic tools
- Static and utility grounding
- Transformer maintenance
- Emergency high-voltage cable storage
- Arc and gas welding
- On-site electric for portable lighting, tools, and machinery
- Fuel dispensing, lubrication, and grease
- Hoist and crane operations

# Sell a better reel with Hannay Reels.

## **Choose a one-piece hub assembly**

Fewer parts, fewer leaks

## **Insist on more metal**

Plastic components tend to break

## **Demand sealed ball bearings**

There's less downtime with maintenance-free components

## **Select dual frame supports**

That's durability that can take harsh punishment

## **Optional stainless steel construction (304 or 316 grade)**

Stands up to caustic environments, when needed

## **Better resist wear and tear**

A 2-coat paint system provides superior protection

## **Get the right reel the first time**

Exceptional and knowledgeable customer service
